37:1 11ml:0,3ml	Neutral Light	Gray	Pale
40:1 12ml:0,3ml	Pale Light	Gray / White	Very Pale

Recommended use – Relations dilution

- The dilution ratios indicated in this manual are based on a technical reference where 10:1 is equivalent to 10 parts of Diluent and 1 part of Pigment, equivalent to 5ml:0.5ml
- In the first session it is recommended to work with a shade one tone lower (lighter) than desired; the final intensity can be reinforced in subsequent sessions
